

Inspection Reports

Many Estate Agents & Developers have a customer services department that keep you informed with progress on your property, but some are unable to provide this service. You may even feel that you would like more regular contact than companies are able to give. The service we are offering ensures that you are fully aware of progress on your property throughout the building process.

The REGULAR package:

*Visit your property twice per month
Take regular photos of development on property
Make regular short reports on progress
Check particular points brought to our attention
Liaise with developer if necessary
Check fittings are installed as requested
Email you with regular updates*

COST £200 GBP per month

** Variations on the package can be arranged to suit your needs.*

The AD-HOC package:

With a new build property there are usually approx. 4-6 stage payments to make and these are often based on the completion of each build stage e.g. concrete works, floors and windows etc. To ensure that these stages are satisfactorily completed we visit your property, make a report on the work that has been done and take a number of photos which we send to you.

This allows you to be more informed when you pay your next stage payment. At any stage of development you may feel that an independent pair of eyes to look at progress, would be an advantage.

*To visit property
Make detailed report and take photos
Email full report to you*

Cost £150 - £200 GBP per report
