

Renting / Lettings

We advertise your property in local newspapers, and show prospective tenants your property.

Once a tenant has been found for your property a tenancy agreement will be drawn up by us to the laws and regulations of the country.

If your property is fully furnished or unfurnished then the tenant will be required to pay a deposit equivalent to 1,5-2 months rent with the first months rent then payable in advance.

All deposits taken from the tenants on behalf of our Landlords will be held by us in a designated bank account for refund to the tenant on completion of tenancy agreement or in the case of a breached agreement forwarded onto the landlord where applicable.

The rent will be collected by us each month with receipts of water, electricity and telephone bills and any other overheads to prove payment.

Should you decide to rent your property it is important that a detailed inventory is completed and this will be signed by the tenant before occupying the property.

At the end of the tenancy agreement the property will be checked to make sure that your inventory is complete and to ensure that all bills have been paid before the deposit is returned to the tenant.

We provide : regular property checks,

Tenancy agreement completed for all lets prepared by a lawyer

Property insurance service before renting if required

Make your investment safe and working for you!

OUR FEES: The first month's rent.
